

# Assignment-1

## Task-1:

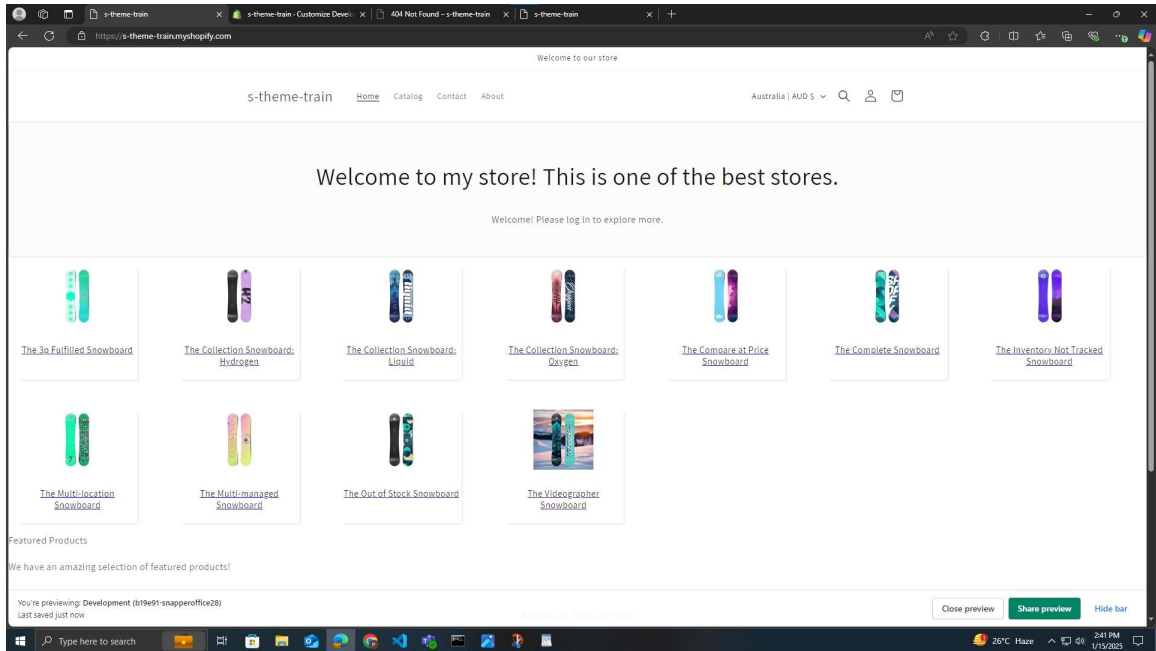

List of Featured products on homepage. Whenever I click on the product it will redirect to product page with product details.

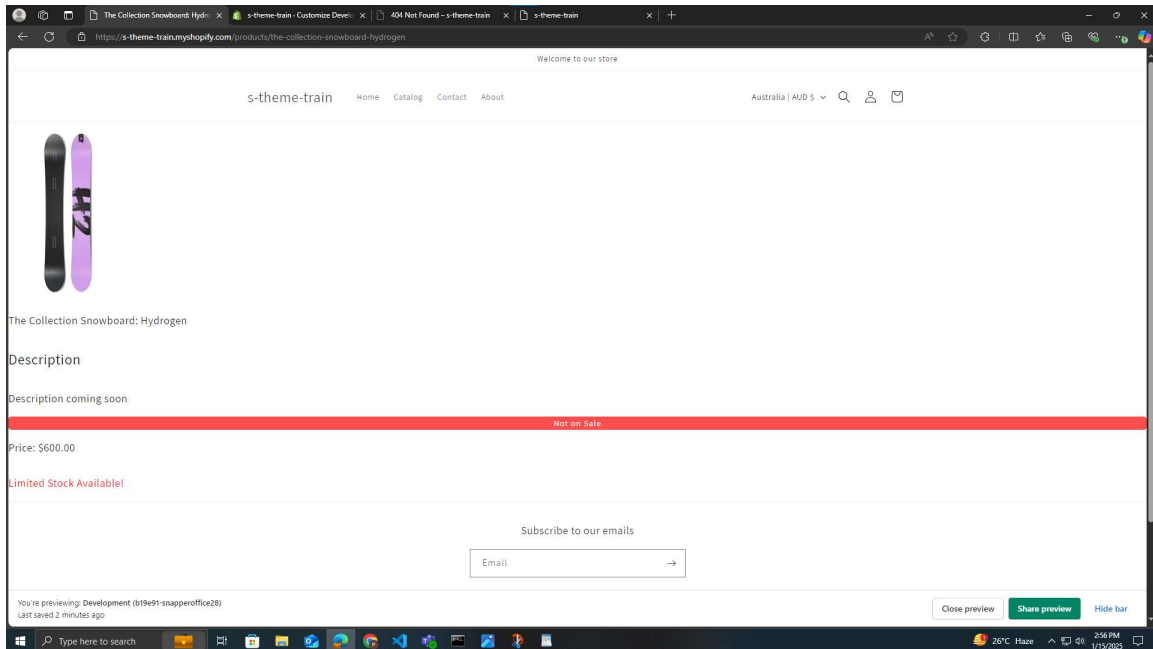

I also created a menu button "About us" when I click it will redirect to about us page "pages/about-us".

## Task-2:

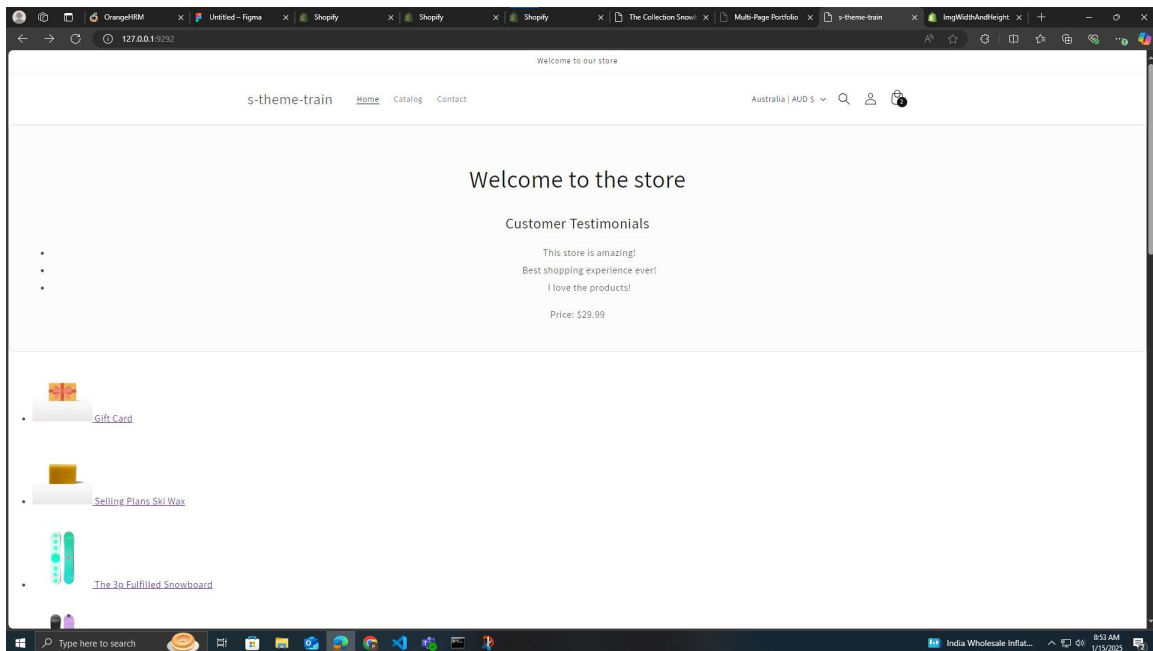

If there are more than 10 products, I have displayed: "We have an amazing selection of featured products!"

If there are 10 or fewer, I have displayed: "Check out our exclusive featured products!"

On the product page, I have showed "Limited Stock Available!" if the product inventory is less than 5.

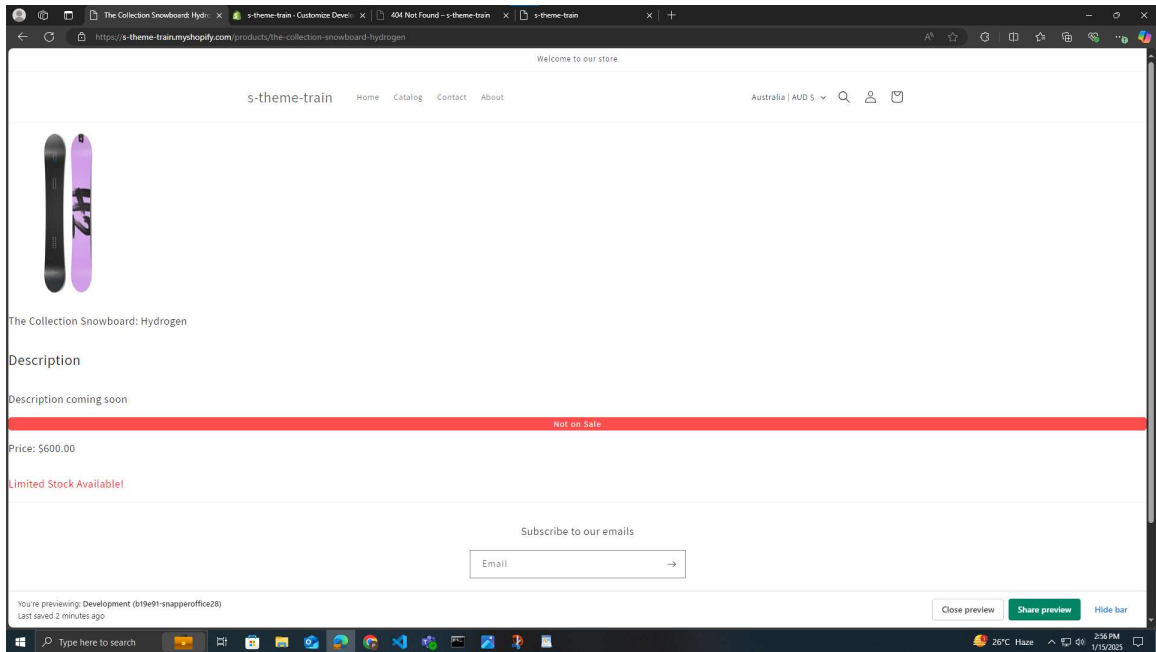

## Task-3:

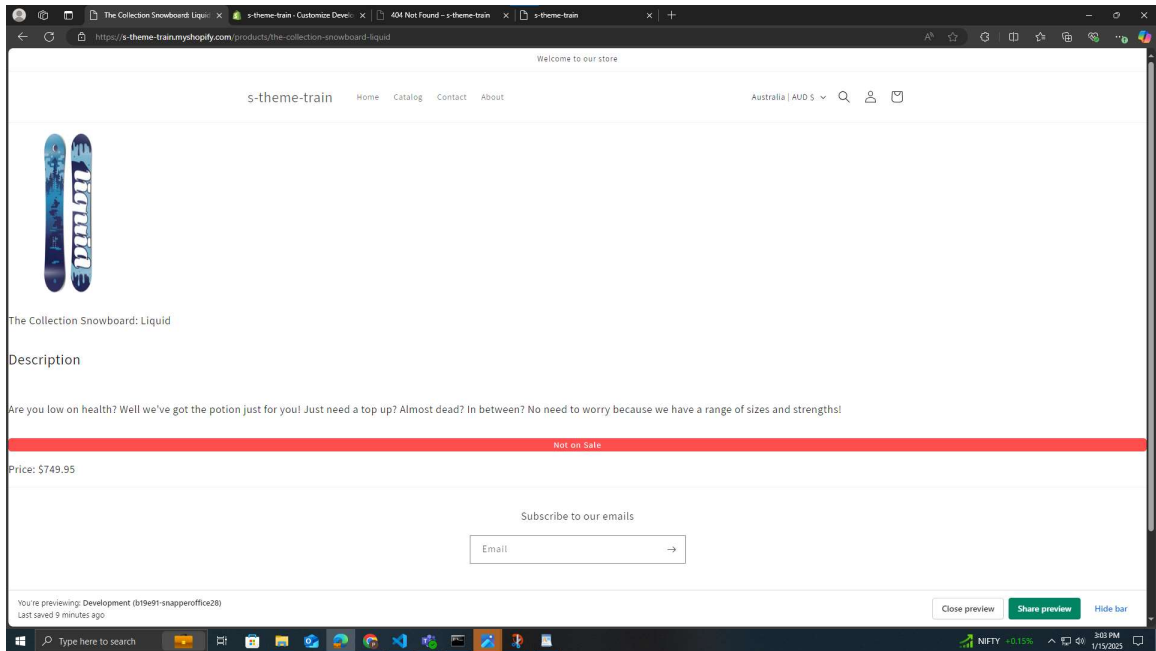

Created a string variable to store a welcome message and displayed it on the

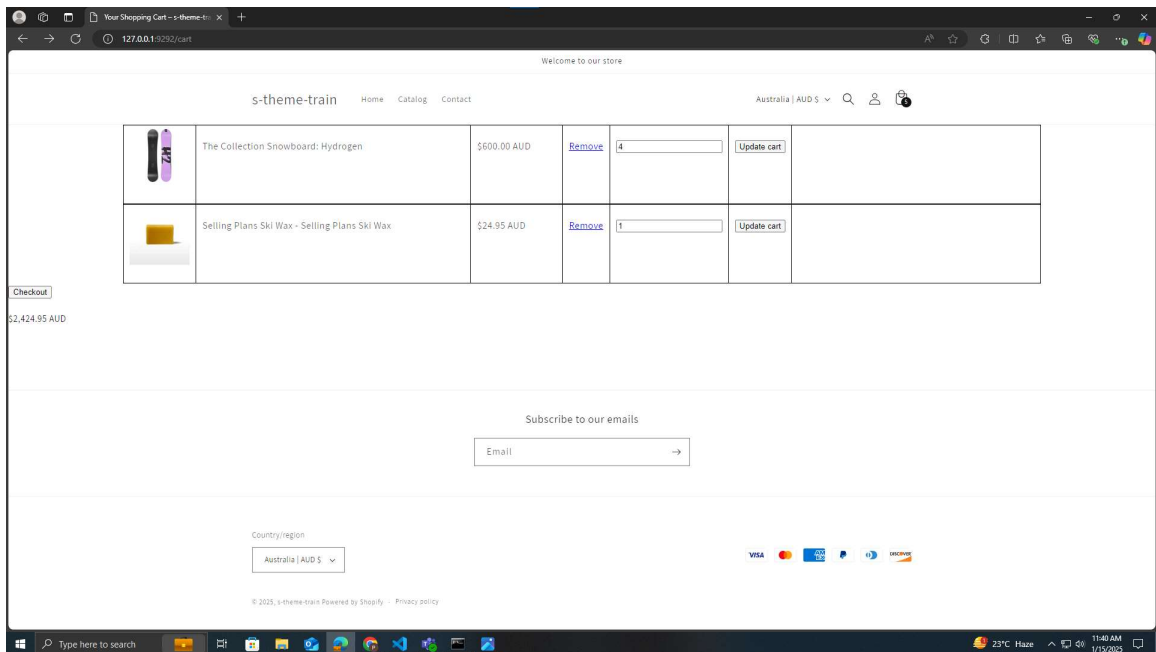

homepage.created an array to list customer testimonials and displayed them dynamically.  
Displayed the price of a product as a number formatted to two decimal places.

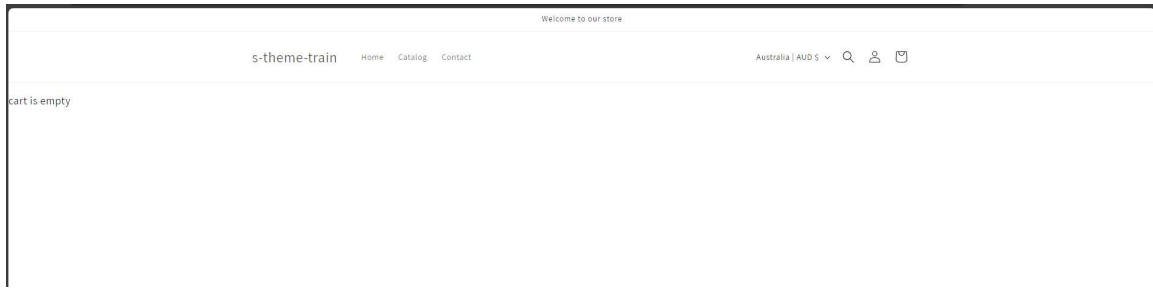

## Task-4:

If there is description for the product I rendered the description, else displayed "Description coming soon"

If cart is empty showed a message that says "cart is empty" else displayed cart items.

## Task-5:

```

<section class="practice-section">
<h1>{{ section.settings.p_text }}</h1>
<section class="homepage-message">
  {% if customer %}
    <p>Welcome back, {{ customer.first_name }}!</p>
  {% else %}
    <p>Welcome! Please log in to explore more.</p>
  {% endif %}
</section>
</section>

```

Used {% and %} trimmed unnecessary spaces and improve the appearance of the output

A screenshot of a newsletter subscription form. At the top, there is a heading 'Subscribe to our emails'. Below the heading, there is a form with a text input field labeled 'Email' and a submit button with a right-pointing arrow.

Created a form in footer using {% form %} tag to signup for newsletter

## Task 6: Variable Manipulation

Free shipping on orders over \$50!
